

### **DunRite Playgrounds**

DunRite Playgrounds provides a complete assortment of playground options. As a Christian company, they seek to provide the best value to their customers. They assist you through planning and design (at no charge) and ship nationwide. Your playground may be a single component or a complete multi-phased project. Shade covers, benches, tables, or pavilions may round out your plans. They can help with your school's athletics, sports, and recreation needs.

### **International Play**

What do kids do best? They play, they climb, they scream. A play structure is a natural selection to let children be kids and make the school a place where kids get excited to go. When selecting equipment, you will want to consider quality of materials, availability of repair parts, durability, safety, and warranty. International Play adheres to ASTM, IPEMA, and ADA safety guidelines. They design indoor and outdoor play structures for children of all ages.

### **KOMPAN**

KOMPAN designers understand that children have different abilities at every stage in their development. From innovative electronic structures for the dynamic digital generation to colorful thematic designs for younger children, KOMPAN's wide variety of product designs offers creative solutions for any play environment. KOMPAN is committed to making the most of children's time on the playground by providing engaging, challenging, and durable playgrounds that ensure kids play harder, stay longer, and come back more often to satisfy their natural need to play.

### **Pebble-Flex Surfacing**

Pebble-Flex Surfacing is an ideal choice for all of your resurfacing and safety surfacing needs. Their UV light stable system combines thermoplastic urethane pebbles with aliphatic urethane binder, making a soft, safe, durable, and skid-resistant surface. Their products are the result of constant, ongoing research and development. Pebble-Flex is the

ideal product for spray parks, water parks, pool decks, and playgrounds. They can incorporate intricate designs using bright colors, which won't fade or degrade in sunlight. They offer a 5-year warranty.

**SofTILE from Sof Surfaces**

SofTILE is a highly durable safety surfacing system that locks in place, is vandal resistant, class A fire rated, and provides fall protection ratings that exceed national standards. SofTILE has been engineered with specific features designed to directly address issues associated with excessive maintenance, premature wear, and non-compliance with safety standards. The success of the SofTILE KrosLOCK brand has been rooted in its ability to offer lower total cost of ownership, while reducing liability concerns through strict performance benchmarks for impact attenuation.
